

ADVANTAGE

► Top performance

This advanced machine allows you to even change half of the wave shape and supports premium arc

► Efficient

The high speed very efficient Inverter with PFC utilizes the maximum out of your input power.

► Unique LCD

The graphic display makes the machine easy to control

► Adjustable clenaing and penetration

for perfect aluminium welding

► Adjustable hot or soft start

to produce a better weldbead appearance at the start.

► Fan on demand

built-in reduces power and the intake of dust and fumes

PERFECT PERFORMANCE DIGITAL DYNAMICS !

The Invertec® V270-T AC/DC & V320-T AC/DC are industrial TIG welding machines designed and manufactured using the latest inverter digital technology enabling the machines to perform at high outputs : respectively 270A and 320A at 35% duty cycle.

The controller provides all the features you would expect from professional AC/DC TIG inverter welding machines combined with a user-friendly layout. The variable frequency control allows the welder to adjust the arc focus to suit the application.

The machines are equipped with a unique LCD user interface, not only showing welding parameters but also the effect on the arc.

A standard feature is the adjustable cleaning and penetration facility, used to gain the ideal balance between cleaning the aluminum surface of oxide and the penetration of the weld. The machines operate using a square wave AC form as standard but can be set to an alternative wave form dependent on the welder's needs.

Adjustable starting current is also available on these machines. With aluminium, a high starting current will support better wetting and improved weld appearance.

The machines are supplied air-cooled as standard, however they can be easily converted to water-cooled with the addition of the Lincoln COOL ARC® 34 water-cooler.

Invertec® V270-T AC/DC & V320-T AC/DC

TECHNICAL SPECIFICATIONS

Product	Item Number	Primary Voltage	Fuse Size	Weight (kg)	Dimensions HxWxD (mm)	Protection/ Insulation Class	Compliance
V270-T AC/DC	K12045-1	230/400V/3/50-60Hz	32A	28	432 x 280 x 622	IP23C / H	EN 60974-1 EN 60974-3 EN 60974-10 ROHS
V320-T AC/DC	K12046-1						

COOL ARC® 34

Product	Item Number	Flow Rate	Dimensions HxWxD (mm)	Tank Capacity	Weight (kg)
COOL ARC® 34	K12047-1	2,5 Liters/min.	256 x 280 x 622	5L	16

WELDING OUTPUT

Product	Current range (A)	Voltage	TIG AC (40°C)		STICK DC (40°C)		O.C.V
			Rated Output Current / Voltage / Duty Cycle	Input Current @ Rated Output	Rated Output Current / Voltage / Duty Cycle	Input Current @ Rated Output	
V270T AC/DC	5-270	400Vac	210 A / 18.4 V / 100%	7.9 A	200A / 28.0 V / 100%	10.4 A	80Vdc
			230 A / 19.2 V / 60%	8.9 A	220A / 28.8 V / 60%	11.9 A
